

PLAY ACTIVITIES 92

This design incorporates different activities to engage & excite kids.

Carousel with bench

Kids love taking a spin ride on this rotating circular platform with seats. Guarded with steel rail to keep them safe. They could have a chat or have a wild spin on this amazing carousel.

Two bay swing with bird's nest

The Swing is a classic piece of playground equipment. Children of all ages love the excitement and relaxation of swinging. The double-bay swing allows numerous children to swing together.

Mega tower, ultimate

This Mega tower play combination offers worlds-of-versatile play on elevated and ground level for a lot of children. A nice inclined platform stair takes the child securely onto the tower platform from which the child can play or go down the slide. A route up to the upper platform is up the curved tower net with one fast, small mesh size climb up, one slower, big mesh size climb that also allows for climbing through. The curved tube slide from second level takes the child back to the ground at full speed.

Sonarc s/steel teletubes - set of 2

Elephant facade

The elephant facade is easily recognisable from a very young age, inspiring imaginations and prelude to great adventures, riding through the jungle or caring for your circus star, the elephant facade is a very popular piece.
